

# AEGIS' 4KCHANGER-TC2 FROM CONFERENCE TABLE TO EMERGENCY CONTROL ROOM

## *A Case Study*

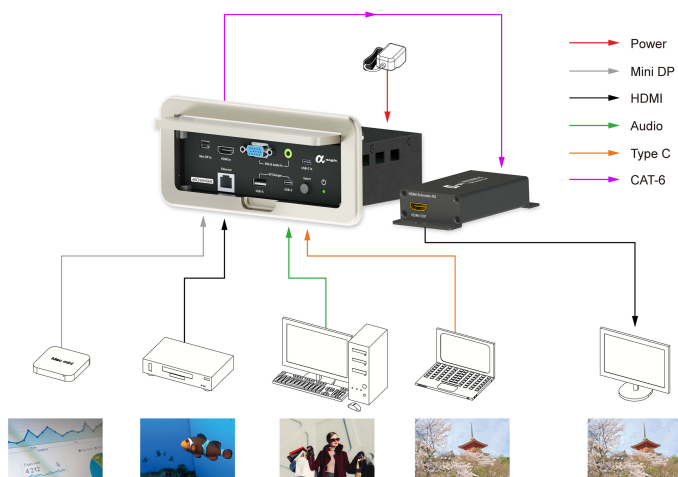

## **4KCHANGER-TC2 Application: Control Room**

A financial group in Taiwan wants to upgrade their data input system from only HDMI to multiple source inputs in the emergency control center. As the emergency control center acts as supporting, data analyzing, system maintenance and emergency responds role, its data and information may come from various formats such as type-C, and mini-DP from notebook or VGA from desktop computers; therefore, it requires to have a connectivity equipment that meet the following requirements:

- Supports multiple type inputs : USB-C, Mini DP, VGA, and HDMI 2.0
- Supports high resolution
- Audio Visual signal extension
- Fit to current table furniture

## 4KCHANGER-TC2

4KCHANGER-TC2 is a multi-format connectivity table box with 30M signal extender: 4 inputs and 1 HDMI output. It provides auto-detection and manual switch. It is an easy, simple plug and play AV input changer.

Excellent for conference, hotel rooms and control center.

## Benefits:

- High stability, compatibility and compatible with new input formats: USB 3.1-C, Mini DP, VGA and HDMI 2.0
- Extension AV signal between the data source and HDMI display by 30M for 4K/60hz and 50M for 1080p
- Provides USB 2.0-A & USB 3.1-C power charge
- Provides PoC connection to extension receiver.
- Supports video resolution of up to 4K/60hz 4:4:4
- Easy plug and play model with both auto detection and button selection
