

USB TYPE-C TO USB-A 3.0 Cable

CAP-USB-110x Series Datasheet

INTRODUCTION

aegis CAP-USB-1101 is a 2-meter USB 3.0 to Type-C cable. It uses USB Type-C connection and can be used on both sides. It complies with USB Association specifications and you can use it with confidence. This cable uses a 56K ohm resistor and supports up to 3A high current charging. It can transmit power and charge at the same time, and supports USB3.1Gen15. The data usage time is extremely high. The metal braided mesh can effectively protect the core wire from breakage and enhance the anti-interference effect.

FEATURES

- ✓ Reversible plug
- ✓ Durable aesthetics
- ✓ Stable current
- ✓ 5Gbps bandwidth transmission
- ✓ Eco-friendly and non-toxic cable

CAP-USB-110x Specification	
Input Type	USB Type-C
Output Type	USB Type-A
Transfer Speed	USB 3.1 Gen1 (5Gbps)
Compatibility	Backward compatible with USB 3.0/2.0
Operating System Support	Windows/ macOS
Connector Plating	Nickel
Cable Jacket Material	TPE
Cable Type	Copper wire
Cable Outer Diameter	OD4.5mm
Power	5V/3A-15W
Cable Length	1M / 2M
Operating Temperature	0°C to 55°C (32°F to 122°F)
Storage Temperature	-40°C to 70°C (-40°F to 158°F)
Warranty	2 Year
