

# USB TYPE-C TO USB Type-C Cable

## CAP-USBC-100x Series Datasheet

### INTRODUCTION

aegis CAP-USBC-1001 is a 2-meter Type-C to Type-C cable that uses USB Type-C quick connection, is non-directional, can be used on both sides, supporting up to 3A high-current charging. The data transmission rate of this cable can reach 10Gbps, allowing you to easily transmit data. The highest resolution supports 4K/60Hz. 4K quality makes the picture clearer. The outer shell is made of high-quality aluminum alloy, which can be used for a long time and is not easy to oxidize and rust. The wire is also added with an additional metal braided mesh to effectively protect the core wire from breakage and enhance the anti-interference effect.

### FEATURES

- ✓ Reversible plug
- ✓ Durable aesthetics
- ✓ Stable current
- ✓ 10Gbps bandwidth transmission
- ✓ UHD audio and video transmission

#### CAP-USBC-100x Specification

CAP-USBC-100x Specification	
Input Type	USB Type-C
Output Type	USB Type-C
Transfer Speed	USB 3.1 Gen2 ( 10Gbps )
Compatibility	Backward compatible with USB 3.0/2.0
Operating System Support	Windows/ macOS
Connector Plating	Nickel
Cable Jacket Material	TPE
Cable Type	Copper wire
Cable Outer Diameter	OD4.5mm
Power	5V/3A-15W
Cable Length	1M / 2M
Operating Temperature	0°C to 55°C (32°F to 122°F)
Storage Temperature	-40°C to 70°C (-40°F to 158°F)
Warranty	2 Year
