

Type-C TO DisplayPort 4K60HZ DONGLE

CXP-USBC-1000 Datasheet

INTRODUCTION

aegis Type-C to DisplayPort adapter is an ideal tool designed for users who need to connect a Type-C device to a DisplayPort monitor. Whether you need to expand your laptop's workspace, present a presentation on a large screen, enjoy high-definition movies or play games, this adapter provides stable, reliable and high-quality image transmission.

This adapter ensures the purity and stability of the image signal, so you don't have to worry about image delay or distortion. Supporting resolutions up to 4K, it can satisfy your ultimate pursuit of image quality.

FEATURES

- ✔ Plug and Play, no startup required: Designed to be easy to use, no startup program needs to be installed
- ✔ Excellent resolution: Support 4K UHD high-resolution output to improve work efficiency
- ✔ Lightweight and portable: No additional power supply is required, and the small size makes it easy to carry around
- ✔ Supports extended and mirror modes
- ✔ Heat dissipation design: Special attention is paid to heat dissipation design to ensure stability even under high load operation and extend product life.
- ✔ Support DisplayPort Alt Mode

CXP-USBC-1000 Specification	
Input Type	USB Type-C
Output Type	DisplayPort
Bandwidth	10Gbps
Maximum resolution	4K / 60Hz
Audio support	-
Operating System Support	Windows/ macOS
Connector Plating	Nickel
Cable Jacket Material	TPE
Cable Type	Copper wire
Cable Outer Diameter	OD4.5mm
Cable Length	155mm
Operating Temperature	0°C to 55°C (32°F to 122°F)
Storage Temperature	-40°C to 70°C (-40°F to 158°F)
Warranty	2 Year
